Italicized Indicate Neuro-sensory shoes
Bold indicated Heel Stability
Shoes preferred by the Clinic Staff

Quality of a Good Shoe

Heel counter does not fold in

Shoe bends in the toe box easily and not in the middle of the shoe. Toe box bend should not be too stiff

No outside heel give and the heel height should be symmetrical

Quality of a Poor Shoe

**When walking you should be able to sense stability of the heel throughout the gait cycle as well as arch support/contact as you step through and push off your big toe.
